Knowsley Council

How to connect to your phone hotspot

1 Turn your mobile phone hotspot on.

Android
1. Open your phone's Settings app.
2. Tap Network and Internet › Hotspot and tethering › Wi-Fi hotspot.
3. Turn on Wi-Fi hotspot.

iPhone
1. Open your phone's Settings.
2. Tap Personal hotspot . Tap to allow others to join

2 On your laptop, click on the wireless icon in the bottom-right corner of the taskbar. (If you don't see the button, click the up arrow button on the left.)

Note: Alternatively, you can open Action Center (Windows key + A), and then click the Network button in the Quick actions section.

3 Select the wireless network you want to connect to.

4 Check the Connect automatically option (optional).

5 Click the Connect button.
